REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The amendment limits the carrier particles to consisting essentially of woody ring and chaff ring from a corncob. The Peiffer patent teaches the presence of pith in the carrier particles of an absorbent material. In addition, the Peiffer patent is silent as to the moisture content of the carrier and does not teach or suggest any heat treatment for the carrier to remove moisture. The Berg patent teaches an absorbent material having a moisture of less than 10% as claimed, but does not provide motivation to eliminate pith as the component in the carrier particles of the absorbent material.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
